ABOUT ME

Product Designer with 2.5+ years of experience in B2C and startup environments. Specializing in simplifying complex user flows and launching MVPs. Focused on reducing friction, improving conversion rates, and driving product metrics.

EXPERIENCE 2 YEARS, 6 MONTHS

Product Designer

Comentee | Nov 2024 – Present

- Designed product UX from scratch (CJM, user flows) using JTBD framework
- After MVP launch, identified key friction points through user feedback and initiated redesign of critical flows
- Simplified request creation flow, reducing friction and increasing completion rate
- Redesigned navigation, increasing transitions between flows and overall user engagement
- Contributed to product decisions and defended design hypotheses with founders
- Systematized design processes and improved consistency through design system implementation
- Conducted design reviews with developers, ensuring consistency and accurate implementation
- Analyzed user feedback to identify growth opportunities and define redesign priorities

Product Designer

Secret Santa / Nov 2023 – nov 2024

- Reduced authentication drop-off from ~45% to 25% by redesigning entry point
- Increased completion rate of core flow (game creation) from 55% to 85% by reducing cognitive load
- Initiated transition to role-based model (organizer / participant / moderator), reducing reliance on email and increasing engagement
- Localized product into 25 languages, improving conversion to install
- Led end-to-end design (web + mobile), working with hypotheses and prioritization

EDUCATION

Bachelor of Science

Synergy University

2015

Bachelor's degree in Banking

Uprock School

Internship at Uprock Studio

2022-2023

Completed a one-year course in interface design.

SKILLS

PRODUCT THINKING | JTBD | USER RESEARCH | PRODUCT METRICS | USER FLOWS | PROTOTYPING | DESIGN SYSTEMS | FIGMA | ANALYTICS | CROSS-FUNCTIONAL COLLABORATION | DESIGN REVIEW
